PERSONAL PROFILE

Software Engineering student skilled in full-stack web and mobile application development, software testing, machine learning and database systems. Strong project leadership and team management experience through academic and university project. **Seeking a 6-month software engineering internship from August 2026 to February 2027.**

EDUCATION

Universiti Malaya

Bachelor of Computer Science (Software Engineering)

September 2024 – Present

Pusat Asasi Sains Universiti Malaya

Foundation in Physical Science (CGPA : 3.89)

July 2023 – June 2024

Maktab Mahmud Alor Setar

Life Science (SPM 10A)

2018 – 2023

TECHNICAL SKILLS

Language : Java, Python, C++, Javascript, HTML, CSS, SQL

Backend : MySQL, MongoDB, Oracle Database, Bootstrap

Library : Scikit-learn, TensorFlow, Pandas, NumPy, SciPy

Testing : Selenium WebDriver, Appium, Test Case Design, GUI Testing

Tools : Git, GitHub, Android Studio, VSCode, Jupyter Notebook, Miniconda, MySQL Workbench, MongoDB Compass, Oracle APEX, Docker, Claude Code, Codex, Google AI Studio

ACADEMIC PROJECT

Personal Financial Planning System

(HTML, CSS, Javascript, Node.js, Express.js, MySQL)

MARCH - JUNE 2026

Developed a full-stack financial planning web application with secure OTP-based multi-step registration, Google OAuth 2.0 integration, session management, and interactive tools for budgeting, goal tracking, and ROI calculations

Red Flag Detector

(Python, Scikit-learn, YOLOv8, TensorFlow)

MARCH - JUNE 2026

Machine learning based dating profile that uses NLP, YOLOv8 visual analysis, and SMOTE-trained tabular classification to detect risk signals in dating bios and profiles, featuring chrome extension with TensorFlow.js client-side inference.

Drone4Dengue Test Automation Framework

(Selenium, Appium, Automated Testing, Black-Box Testing)

APRIL 2026

Conducted automated functional testing for the Drone4Dengue web and mobile platforms using Selenium and Appium, designing and executing black-box test cases to validate system functionality and identify defects.

UM Visa Mate

(Kotlin, Android Studio, XML Layouts)

JAN 2026

Native Android mobile app built with Kotlin for university visa management, featuring role-based student/faculty/admin portals, document uploads, payment processing, and multi-stage application tracking.

Database Management System for Aisdankopi

(Oracle APEX, SQL)

DEC 2025

Designed and deployed a 3NF relational database for a cafe in Oracle APEX using SQL, translating business workflows into ERDs and writing advanced queries to automate sales reports and stock alerts.

LEADERSHIP EXPERIENCE

Director of Warisan Run (Warisan Run 2026)

NOV 2025 - MAY 2026

- Directed a **45-member committee** in end-to-end planning and execution. Secured **10 sponsorship partnerships** and achieved **260 participant registrations**

Facilitator (Minggu Haluan Siswa Universiti Malaya)

AUG - NOV 2025

- Led orientation program involving **400+ undergraduate freshies** during the orientation week. Manage registration, welfare, program activities, and closing ceremony.

Head of Department Sales Booth (Unique-X)

JUNE 2025

- Led a **9-member team** in planning and executing a booth sales for cultural event. Secured **14 vendors** through promotional and outreach efforts.

Head of Department Safety and Welfare (Charity Run)

MAY 2025

- Led a **6-member** in handling event safety, emergency protocols, and venue coordination. Managed participant registration and welfare throughout the event.

Technical (Gelanggang Seni)

JAN 2026

- International documentation project** recognized by **UNESCO** and **HEP UM**. Managed audio-visual, lighting to ensure smooth performances and recordings.

Technical (UM Hackathon 2026)

MAY 2026

- National-scale** competition involving **200+ teams nationwide**, with a **RM40,000 prize pool**. Managed livestream, participant communications, and developed the **registration website**.

Sports & Health (Festival Konvokesyen Universiti Malaya)

NOV 2025

- Universiti Malaya's **largest annual event** organized by HEP UM. In charge for handling 2 programs

VOLUNTERING

- Community Outreach at Kampung Orang Asli Air Bah
- Track & Field Sukan Mahasiswa Universiti Malaya
- Artist Manager for International House Dinner

DEC 2025

NOV 2025

DEC 2025

AWARD & CERTIFICATION

- CCNA : Introduction To Networking**
- CCNA: Switching, Routing, and Wireless Essentials**
- Champion Dikir Barat for Feseni 2025**
- Second Runner Up Dikir Barat for Feseni 2026**
- Top 3 candidates for Best Director Award**

SOFT SKILLS

- Microsoft Powerpoint, Words, Excel, Office, Teams
- Google Drive, Meet, Sheets, Docs
- Canva, Capcut, Snapseed, Lightroom, Picsart, VSCO, Figma
